

SALEM NASEREDDIN

ASPIRING MACHINE LEARNING ENGINEER | COMPUTER SCIENCE STUDENT

✉ salem.nasereddin2004@gmail.com ☎ (201) 989-3899 📍 74 N 7th ST, Paterson, NJ 07522 🌐 github.com/xs0mx

PROFILE

Computer Science student at Rutgers University with experience in Python, data analysis, machine learning, and software development. Skilled in building machine learning pipelines, performing exploratory data analysis, and comparing models such as logistic regression, decision trees, random forests, and gradient boosting. Interested in applied AI, computer vision, sensor data analysis, and real-world machine learning systems.

EDUCATION

Associate in Science, Computer Science

Passaic County Community College | Paterson, NJ

- Graduated December 2024
- GPA: 3.94/4.0

Bachelor of Science, Computer Science

Rutgers University | New Brunswick, NJ

- Expected Graduation: December 2026
- Relevant Coursework: Machine Learning, Data Science, Data Structures, Algorithms, Linear Algebra, Discrete Structures, Statistics, Database Systems

EXPERIENCE

Incoming Undergraduate Researcher - SDIP REU Program

Clarkson University — Potsdam, NY

Summer 2026

- Selected for a summer research experience focused on sensor development, analysis, and implementation.
- Expected to work with sensor-related data collection, sensor outputs, and data analysis from physical sensing systems.
- Interested in applying machine learning and data science methods to analyze sensor-based data and improve model performance.

Data Analyst Intern

TILT Games, Indie Game Marketing Company

October 2024 – November 2024

- Designed and implemented Python-based web scrapers using Selenium, BeautifulSoup, and Requests to collect data from Metacritic.
- Automated data collection workflows, improving efficiency and accuracy for marketing insights.
- Extracted, cleaned, and organized data into date-stamped CSV files for storage and analysis.
- Collaborated with the team to analyze trends and provide actionable insights for strategic campaigns.

Mentor

STEM Program, Passaic County Community College — Paterson, NJ

September 2023 – Present

- Guided incoming freshmen with academic support, study habits, and college transition.

Tutor

Student Support Services STEM, Passaic County Community College — Paterson, NJ

September 2022 – Present

- Tutored students in math, physics, programming, and C++, strengthening problem-solving skills.

PROJECTS

- Machine Learning Model Comparison Project — Compared logistic regression, decision tree, random forest, and gradient boosting models using standard evaluation metrics.
- AI-Powered Patient Assistant — Built a Princeton Hackathon demo AI assistant to support patient-doctor communication

SKILLS

- Programming: Python, Java, C++, SQL, Swift
- Machine Learning & Data Science: pandas, NumPy, scikit-learn, exploratory data analysis, data cleaning, feature engineering, model evaluation
- Machine Learning Models: Logistic Regression, Decision Trees, Random Forest, Gradient Boosting
- Data & Databases: SQL databases, relational database design, querying, CSV data processing
- Tools: Git, GitHub, VS Code, Eclipse, MySQL, Microsoft Office, Canva
- Computer Science: Data Structures, Algorithms, Linked Lists, Stacks, Queues, Trees, Graphs, Problem Solving
- Mathematics: Calculus, Linear Algebra, Discrete Structures, Statistics
- Languages: English, Arabic
